# **ABOUT ME**

As a motivated computer science student, I am seeking to apply my knowledge and skills to solve real-world challenges and contribute to the advancements and development of modern technology. Additionally, I am always eager to gain new insights and further extend my expertise.

## **PROJECTS**

# **REST API Input Validation (Python)**

Secure Programming Term Project • March 2023 - May 2023

- $\boldsymbol{\cdot}$  Responsible for the full development of the project.
- · Developed using Python and the Flask library.
- · Used SQLite3 as the database to store data.
- · Used Regex to validate inputs for GET, POST, and PUT Requests.

### Car Rental Management System (Python & SQL)

DBMS Course Term Project · November 2022 - December 2022

- · Handled both frontend and backend of the application.
- $\boldsymbol{\cdot}$  Developed using Python's Tkinter library and MySQL Workbench.
- · Led the designing of the GUI and functionality of the project.

# Natural Disaster Tracker Android App (java)

Software Engineering Team Project • January 2022 - May 2022

- $\cdot$  Collaborated with three other students.
- · Developed using Android Studio Code, Java, XML, Google Maps API, and NASA EONET API.
- $\boldsymbol{\cdot}$  Mainly handled the frontend of the application.

### Simple Flash Study Card Program (Java)

Object Oriented Programming Term Project · November 2021 - December 2021

- $\cdot$  Full stack team project with the students of the OOP class.
- · Developed fully using Java and its Swing library and utilized the concepts of OOP, such as polymorphism, inheritance, etc.
- $\boldsymbol{\cdot}$  Led the backend development of the application.

#### **SKILLS**

Java, Python, C, HTML & CSS, Javascript, ReactJS, SQL, Git, Docker

#### **EDUCATION**

## **Bachelor of Science in Computer Science**

University of Texas at Arlington  $\cdot$  Arlington, TX  $\cdot$  Aug 2020 - May 2024

## **CERTIFICATIONS**

#### **AWS Certified Cloud Practitioner**

Amazon Web Services (AWS) · 2023

# **Python Data Structures**

Coursera: University of Michigan • 2020

#### Programming for Everybody (Python)

Coursera: University of Michigan · 2020
